

K.R. MANGALAM UNIVERSITY

Web Programming Experiment File (SEC035)

**Bachelor of Technology
in
Computer Science and Engineering**

Submitted by

Aditya (2401010023)

B.Tech CSE(Core)—4thSemester

Section: A

Submitted To:

MS. Rishika Mehta

**School of Engineering & Technology
K.R. MANGALAM UNIVERSITY
Sohna, Haryana, 122103, India feb-
2026**

Experiment: 3

Task

Task1: Project Setup & Introduction

- Create a project folder named interactive quiz
- Inside the folder, create: ○ index.html ○ style.css ○ script.js
- Add header comments in HTML(project title, name, date)
- Display a brief introduction explaining the quiz

Deliverable:

Project folder with HTML, CSS, and JS files linked correctly.

Task2: Quiz Interface Design(HTML)

- Create a quiz layout containing:
 - Question text ○ Multiple-choice options(radio buttons or buttons) ○ “Next” or “Submit” button
- Use semantic HTML elements for clarity

Deliverable:

Structured quiz interface with at least one question displayed.

Task3: Styling the Quiz(CSS)

- Apply CSS to:
 - Improve readability of questions and options
 - Align buttons and sections properly ○
- Use colors and spacing for better UX

Deliverable:

style.css file with clean and consistent styling.

Task4: Quiz Logic & Interactivity (JavaScript)

- Store quiz questions and answers in JavaScript (array/object)
- Capture user-selected answers
- Move between questions using button events

- Track and up date the score

Deliverable:

Working quiz logic using JavaScript event handling.

Task5: Result Display

- Display:
 - Final score after quiz completion
 - Message such as “Excellent”, “Good”, or “Try Again”
- Hide quiz interface after submission(optional)

Deliverable:

Dynamic result display using JavaScript.

Task6(Bonus): Restart Quiz Feature

- Add a “Restart Quiz” button
- Reset score and question index on restart

Deliverable:

Fully reusable quiz application.
